Education

College Of Engineering, Guindy

2021 – 2025

B.E. Computer Science and Engineering

CGPA – 9.33

Doveton Boys' Higher Secondary School

2020 – 2021

ISC Board (XII)

Percentage – 99%

Experience

Walmart Global Tech

Aug. 2025 – present

Software Engineer II

Bengaluru

- Supported Java Spring Boot services within the platform, assisting with debugging, and deployments.
- Worked with Cassandra for understanding data flows and performing basic queries
- Collaborated with teams using Apache Kafka pipelines
- Contributed to data migration efforts, validating and transferring datasets from the legacy system to the new platform.

Walmart Global Tech

Jan. 2025 – Jun. 2025

Grad Intern

Bengaluru

- Worked on a Kubernetes-based platform, managing containerized applications using Docker and Helm charts.
- Optimized server latency and concurrency handling using Goroutines and channels.
- Collaborated on React-based dashboards, adding features and fixing UI bugs.

Arcesium

Jun. 2024 – Aug. 2024

SDE Intern

Hyderabad

Contributed to frontend and backend components of an ETL tool, improving stability and reducing failures.

- Did extensive testing on modules using JUnit.

Projects

Academy Management App | Kotlin, Android Studio, AWS

2024 – Present

- Developing a real-world student management application for a small academy, including a native Android app for staff.
- Building backend services with authentication and data APIs using AWS Lambda, DynamoDB, API Gateway, and Cognito.
- Implementing features for batch management, attendance tracking, and fee payments; work in progress with ongoing AWS deployment and testing.

Blockchain-based Medical Data Sharing System | Hyperledger Fabric, IPFS, Docker, Kubernetes

Apr 2025

- Built a multi-organization Hyperledger Fabric network with CA, MSP, Raft ordering and CouchDB, and scaled it using Kubernetes.
- Developed custom IPFS nodes (helix) and edge-node logic in Node.js with JWT authentication, LRU caching, and secure wallet handling.
- Evaluated system performance across response time, storage usage, concurrency, and crash-node tolerance.

Technical Skills

Languages: Python, Java, C, Kotlin, Golang, JavaScript, SQL, Bash

Technologies/Frameworks: Linux, JUnit, Spring, Kubernetes, Docker, Cassandra, Kafka, React, AWS (Lambda, DynamoDB, Cognito, API Gateway)

Co-curriculars

Research Intern

May. 2023 – May. 2024

Research intern on transfer learning, adversarial attacks, and adversarial defense under Dr. Mary Anita Rajam V, HOD, CEG

Achievements

Research Paper Presentation

May. 2024

Presented paper on adversarial robustness and adversarial training performed on Land-Use datasets at the 4th ICMLBDA conference conducted at NIT Kurukshetra.
